

# Kiron.university

Kiron counts over 80 entrepreneurs, designers, IT specialists, psychologists, and experts in education. + 250 volunteers (25 in Belgium only) and more than 50 supporting professors Kiron opened on October 15th 2015 with 1000 students.

## Not for everyone

While we have had large success with thousand of applicants for our university program; it is not for everyone. Many refugees want a faster and more focused pathway into their new careers.

# European problem: A Lack of Developers

Europe expects a deficit of

**900,000**

software developers by 2020

## Our Solution

Kiron CodeSchool wants to train refugees to become skilled software developers with a curriculum fitting the needs of the job market, using blended learning technologies.

# The Program Timeline

**Learning**  
4 months

**Project**  
4 months

**Practical experience**  
2 months

**Job**

Language School

Online courses

Mentoring &  
Support

# What else we provide

Kiron CodeSchool get a range of tools and direct personal support developed by Kiron to empower them and improve their performance and skill learning throughout the program.

## MOOCS
