

Kiron.university

Kiron counts over 80 entrepreneurs, designers, IT specialists, psychologists, and experts in education. + 250 volunteers (25 in Belgium only) and more than 50 supporting professors Kiron opened on October 15th 2015 with 1000 students.

A Success Story

Kiron had large success with thousand of applicants for our university program; and currently is finishing the first semester of studies with 1300 refugee students.

Looking for Sustainability

In spite of our success we want to develop a more sustainable model that could match the needs of
Belgian society.

European problem: A Lack of Developers

Europe expects a deficit of

900,000

software developers by 2020;
20.000 in Belgium only.

Our Solution

Kiron CodeSchool trains refugees to become skilled software developers, through an innovative blended learning program with a curriculum fitting the needs of our partner companies.

The Program Timeline

Learning
